Tag 1	<p>A pyramid of numbers from 14 to 67. The bottom row has four boxes: 14, 8, 7, 8. The next row has three boxes: 22, 15, 15. The third row has two boxes: 37, 30. The top box is 67.</p> <p>A house-shaped grid with a triangular roof. The top box is 50. The middle row has two boxes: 25 and 38. The bottom row has four boxes: 13, 8, 7, 8. Arrows show operations: +25 from 25 to 50, -7 from 50 to 43, -13 from 38 to 25, and -5 from 43 to 38.</p> <p>A house-shaped grid with a triangular roof. The top box is 54. The middle row has two boxes: 22 and 32. The bottom row has four boxes: 23, 31, 48, 6.</p> <p>13 + 25 = <u>38</u> 42 - 24 = <u>18</u> 9 + 10 = <u>19</u> 22 - 18 = <u>4</u></p>		
Tag 2	$18 + \underline{22} = 40$ $36 - \underline{5} = 31$ $18 - \underline{14} = 4$ $16 + \underline{28} = 44$	<p>A house-shaped grid with a triangular roof. The top box is 71. The middle row has two boxes: 22 and 49. The bottom row has four boxes: 13, 58.</p> <p>A pyramid of numbers from 5 to 17. The bottom row has four boxes: 5, 2, 1, 3. The next row has three boxes: 7, 3, 4. The third row has two boxes: 10, 7. The top box is 17.</p> <p>A house-shaped grid with a triangular roof. The top box is 89. The middle row has two boxes: 63 and 43. The bottom row has four boxes: 86, -3, -43, 20. Arrows show operations: +26 from 63 to 89, -3 from 89 to 86, -43 from 86 to 43, and +20 from 43 to 63.</p>	
Tag 3	<p>A house-shaped grid with a triangular roof. The top box is 66. The middle row has two boxes: 38 and 22. The bottom row has four boxes: 50, -28, +28, 16. Arrows show operations: +16 from 50 to 66, -28 from 66 to 38, -16 from 38 to 22, and +28 from 22 to 50.</p> <p>A pyramid of numbers from 11 to 65. The bottom row has four boxes: 11, 10, 5, 9. The next row has three boxes: 21, 15, 14. The third row has two boxes: 36, 29. The top box is 65.</p> <p><u>14</u> - 12 = 2 <u>17</u> + 50 = 67 <u>31</u> + 26 = 57 <u>29</u> - 13 = 16</p> <p>A house-shaped grid with a triangular roof. The top box is 55. The middle row has two boxes: 29 and 26. The bottom row has four boxes: 8, 47, 35, 20.</p>		
Tag 4	<p>A house-shaped grid with a triangular roof. The top box is 98. The middle row has two boxes: 46 and 52. The bottom row has four boxes: 13, 85, 41, 57.</p> <p>A house-shaped grid with a triangular roof. The top box is 35. The middle row has two boxes: 51 and 11. The bottom row has four boxes: 19, 62, 48, 9. Arrows show operations: +24 from 25 to 49, +3 from 49 to 52, -12 from 37 to 25, and -15 from 52 to 37.</p> <p>A pyramid of numbers from 13 to 69. The bottom row has four boxes: 13, 9, 5, 14. The next row has three boxes: 22, 14, 19. The third row has two boxes: 36, 33. The top box is 69.</p>	$35 - 16 = \underline{19}$ $\underline{51} + 11 = 62$ $\underline{48} + 9 = 57$ $51 - \underline{11} = 40$	

VIER-TAGE-TRAINING bis 100

So wirst du ein Profi!

Tag 1	 A pyramid of numbers: 18 (bottom), 31, 22, 54 (top). A flow diagram with nodes 30, 50, 59, 64. Arrows show 30 to 50, 50 to 64, 64 to 59, 59 to 30, and 59 to 64. A house-shaped grid with numbers 64, 59, 51, 40. $64 - 16 = \underline{\quad}$ $47 + 15 = \underline{\quad}$ $38 + 5 = \underline{\quad}$ $66 - 18 = \underline{\quad}$		
Tag 2	$9 + \underline{\quad} = 55$ $21 - \underline{\quad} = 0$ $15 - \underline{\quad} = 13$ $32 + \underline{\quad} = 58$ A house-shaped grid with numbers 85, 20, 48, 74. A pyramid of numbers: 7, 16, 26, 53.	 A flow diagram with nodes 57, 18, 11, 4. Arrows show 57 to 18, 18 to 11, 11 to 4, 4 to 57, and 57 to 4. A house-shaped grid with numbers 66, 25, 22, 56.	
Tag 3	 A flow diagram with nodes 80, 33, 11, 4. Arrows show 80 to 33, 33 to 11, 11 to 4, 4 to 80, and 80 to 11. A pyramid of numbers: 4, 5, 10, 10.	$\underline{\quad} - 3 = 39$ $\underline{\quad} + 28 = 43$ $\underline{\quad} - 23 = 9$ $\underline{\quad} + 8 = 12$ A house-shaped grid with numbers 66, 25, 22, 56.	
Tag 4	 A house-shaped grid with numbers 68, 12, 7, 58. $\underline{\quad} - 17 = 30$ $\underline{\quad} + 22 = 67$ $\underline{\quad} + 4 = 56$ $32 - 30 = \underline{\quad}$	 A flow diagram with nodes 76, 53, 77, 60. Arrows show 76 to 53, 53 to 77, 77 to 60, 60 to 53, and 76 to 60. A pyramid of numbers: 6, 9, 11, 22.	

VIER-TAGE-TRAINING bis 100

So wirst du ein Profi!

Tag 1	<p>A pyramid of numbers from 18 to 99. The bottom row has four boxes: 18, 13, 10, 12. The next row has three boxes: 31, 23, 22. The third row has two boxes: 54, 45. The top box contains 99.</p> <p>A house-shaped grid with a triangular roof containing 64. The main body has four boxes: 59, 5, 13, 51. The base has four boxes: 40, 24.</p> <p>Four equations: $64 - 16 = \underline{48}$ $47 + 15 = \underline{62}$ $38 + 5 = \underline{43}$ $66 - 18 = \underline{48}$</p>	<p>A house-shaped grid with a triangular roof containing 30. The main body has two boxes: 59 and 50. Tag 1	 A number pyramid with four levels. The bottom level has three boxes containing 10, 11, and 10. The second level has two boxes containing 21 and 10. The third level has one box containing 10. The top level has one empty box.	 A house-shaped frame with a triangular roof containing 93. The body contains three rows of boxes: the top row has one box (-37), the middle row has two boxes (+15 and +13), and the bottom row has two boxes (+9 and -37).	 A house-shaped frame with a triangular roof containing 98. The body contains three rows of boxes: the top row has one box (8), the middle row has two boxes (33), and the bottom row has one box (4).	$11 + 7 = \underline{\quad}$ $43 - 38 = \underline{\quad}$ $34 + 13 = \underline{\quad}$ $61 - 33 = \underline{\quad}$
Tag 2	$58 - \underline{\quad} = 33$ $25 + \underline{\quad} = 45$ $28 - \underline{\quad} = 2$ $28 + \underline{\quad} = 49$	 A house-shaped frame with a triangular roof containing 52. The body contains three rows of boxes: the top row has one box (16), the middle row has two boxes (7), and the bottom row has one box (20).	 A number pyramid with four levels. The bottom level has four boxes containing 7, 6, 7, and 6. The second level has two boxes containing 29 and 31. The third level has one empty box. The top level has one empty box.	 A house-shaped frame with a triangular roof containing 91. The body contains three rows of boxes: the top row has one box (92), the middle row has two boxes (95), and the bottom row has one box (97).
Tag 3	 A house-shaped frame with a triangular roof containing 89. The body contains three rows of boxes: the top row has one box (51), the middle row has two boxes (76 and 61), and the bottom row has one box (89).	 A number pyramid with four levels. The bottom level has four boxes containing 24, 35, 21, and 40. The second level has two boxes containing 35 and 21. The third level has one empty box. The top level has one empty box.	$\underline{\quad} + 29 = 31$ $\underline{\quad} - 21 = 8$ $\underline{\quad} + 12 = 59$ $\underline{\quad} - 10 = 41$	 A house-shaped frame with a triangular roof containing 100. The body contains three rows of boxes: the top row has one box (69), the middle row has two boxes (34), and the bottom row has one box (57).
Tag 4	 A house-shaped frame with a triangular roof containing 94. The body contains three rows of boxes: the top row has one box (12), the middle row has two boxes (44), and the bottom row has one box (67).	$57 - 34 = \underline{\quad}$ $35 + \underline{\quad} = 46$ $57 - 49 = \underline{\quad}$ $48 + \underline{\quad} = 60$	 A house-shaped frame with a triangular roof containing 85. The body contains three rows of boxes: the top row has one box (-31), the middle row has two boxes (+16 and +11), and the bottom row has two boxes (+4 and -31).	 A number pyramid with four levels. The bottom level has four boxes containing 4, 7, 26, and 32. The second level has two boxes containing 26 and 32. The third level has one empty box. The top level has one empty box.

VIER-TAGE-TRAINING bis 100

So wirst du ein Profi!

Tag 1	<p>A pyramid of numbers from 10 to 51. The bottom row has four boxes: 10, 1, 9, 11. The next row has three boxes: 11, 10, 20. The top row has two boxes: 21, 30. The apex box is 51.</p>	<p>A house-shaped grid with a triangular roof. The top box is 93. The middle row has two boxes: 78 and 69. The bottom row has three boxes: +15, -37, +9, +13. The right side of the house has boxes: 56, 65, 4, 33, 90, 8, 98. Arrows indicate operations between adjacent boxes.</p>	<p>A house-shaped grid with a triangular roof. The top box is 98. The middle row has two boxes: 90, 8. The bottom row has three boxes: 65, 33, 4. The right side of the house has boxes: 90, 8, 98.</p>	$11 + 7 = \underline{18}$ $43 - 38 = \underline{5}$ $34 + 13 = \underline{47}$ $61 - 33 = \underline{28}$
Tag 2	$58 - \underline{25} = 33$ $25 + \underline{20} = 45$ $28 - \underline{26} = 2$ $28 + \underline{21} = 49$	<p>A house-shaped grid with a triangular roof. The top box is 52. The middle row has two boxes: 16, 36. The bottom row has three boxes: 45, 7, 20, 32.</p>	<p>A pyramid of numbers from 9 to 60. The bottom row has four boxes: 9, 7, 6, 12. The next row has three boxes: 16, 13, 18. The top row has two boxes: 29, 31. The apex box is 60.</p>	<p>A house-shaped grid with a triangular roof. The top box is 92. The middle row has two boxes: 91. The bottom row has three boxes: -5, +4, 97, 95. Arrows indicate operations between adjacent boxes.</p>
Tag 3	<p>A house-shaped grid with a triangular roof. The top box is 89. The middle row has two boxes: 51. The bottom row has three boxes: +28, -38, 61, 76. Arrows indicate operations between adjacent boxes.</p>	<p>A pyramid of numbers from 24 to 94. The bottom row has four boxes: 24, 11, 8, 13. The next row has three boxes: 35, 19, 21. The top row has two boxes: 54, 40. The apex box is 94.</p>	$\underline{2} + 29 = 31$ $\underline{29} - 21 = 8$ $\underline{47} + 12 = 59$ $\underline{51} - 10 = 41$	<p>A house-shaped grid with a triangular roof. The top box is 100. The middle row has two boxes: 69, 31. The bottom row has three boxes: 34, 66, 57, 43.</p>
Tag 4	<p>A house-shaped grid with a triangular roof. The top box is 94. The middle row has two boxes: 12, 82. The bottom row has three boxes: 50, 44, 27, 67.</p>	$57 - \underline{34} = \underline{23}$ $35 + \underline{11} = 46$ $57 - \underline{49} = \underline{8}$ $48 + \underline{12} = 60$	<p>A house-shaped grid with a triangular roof.
